INSHARAH SYED

Full-Stack Developer | AI Enthusiast | IT Student 📍 Karachi, Pakistan | 📨
insharahsyedd@gmail.com 🔗 LinkedIn | 💻 GitHub

PERSONAL NOTE:

Honestly, I've always been fascinated by how technology can actually change lives. As a BS-IT student, I don't just see coding as a task; I see it as a way to solve real problems. I am a quick learner who thrives on technical challenges and is constantly pushing to bridge the gap between complex AI logic and user-friendly solutions.

EDUCATION:

BS in Information Technology (In Progress)

LINCLON UNIVERSITY COLLEGE(MALAYSIA)

TECHNICAL PROJECTS

1. Face Mask Detector (AI & Computer Vision)

- Built a real-time AI system using Python to detect face masks for safety and monitoring.

- Tech: Python, OpenCV, Machine Learning.

2. Document Summarizer App (NLP)

- Developed an intelligent tool that summarizes long documents into concise insights using Natural Language Processing.

- Tech: Python, NLP.

3. Professional Restaurant Website

- Designed and deployed a professional, multi-page responsive website with modern UI.

- Tech: HTML5, CSS3, JavaScript.

4. Gaming Exploration Platform

- Created an immersive web platform for gaming enthusiasts with interactive layouts.

- **Tech: HTML5, CSS3, JavaScript.**

5. Python Calculator

- **Developed a functional calculator focusing on clean mathematical logic and precise code.**
- **Tech: Python.**

LICENSES & CERTIFICATIONS

Generative AI Engineering – GIAIC (Ongoing)

Cisco networking academy- (cybersecurity , artificial intillegence)

Digital marketing

TECHNICAL SKILLS

- **Languages: Python, TypeScript, JavaScript, HTML5/CSS3.**
- **Frameworks: Next.js, React, Tailwind CSS.**
- **Developer Tools: Git, GitHub, VS Code.**
